Aquaculture Horizons 2026

International conference & expo on aquaculture & seafood (Aquaculture Horizons 2026) will be held in Singapore. The Aquaculture Horizons 2026 promises to be an immersive exploration of the latest trends, breakthroughs, and sustainable practices shaping the future of aquaculture.

Seafood remains one of the most globally traded food commodities, playing a critical role in nutrition, livelihoods, and food security. As demand continues to grow, the seafood industry faces increasing pressure to ensure its products are not only safe and high quality but also traceable, sustainable, and ethically sourced. At the same time, climate change, geopolitical dynamics, and shifting consumer expectations are reshaping global seafood markets. This conference theme will explore how the seafood sector is adapting to these changes and leading innovation across harvesting, processing, distribution, and market access. Sessions will highlight cutting-edge practices in digital traceability, cold chain logistics, species diversification, value-added processing, and eco-labelling. Participants will also delve into regulatory trends, seafood fraud prevention, and the role of international trade frameworks in shaping the future of seafood commerce.

Sessions under this theme will address the challenges and opportunities in scaling sustainable aquaculture. Key focus areas include a special focus will be placed on technological disruption—from blockchain and QR-based traceability systems to digital twins, AI-driven inventory tools, and smart compliance platforms. These innovations are enabling greater transparency and efficiency across the supply chain, from boat to plate. Topics will also address the growing demand for responsibly harvested wild-caught seafood, consumer-facing sustainability certifications, and emerging markets for underutilized species and alternative proteins. Real-world case studies will be shared by industry leaders, offering insights into successful models for value chain integration, export growth, and sustainability alignment.

By bringing together producers, processors, exporters, buyers, certification bodies, and technology innovators, the seafood track will foster cross-sector dialogue and collaboration. The aim is to support a global seafood economy that is more resilient, inclusive, and environmentally responsible. With Singapore serving as a key global trade and logistics hub, this theme will also explore the city-state's leadership in advancing digital seafood commerce, regional trade integration, and food safety innovation—positioning it as an ideal meeting ground for shaping the future of seafood.

AQUACULTURE HORIZONS CONFERENCE GOALS

ABSTRACT SUBMISSION DETAILS

- Abstracts submitted to the conference should be written in English only.
- Authors can submit their abstracts in Doc, Docx and Pdf format.
- Any act of plagiarism is unacceptable.
- Each abstract should be strictly within 1 page in length, contains about 500 words.
- The presenting author is required to ensure that all co-authors are aware of the content of the abstract before submission.
- The type of presentation should be nominated while submitting the abstract.
- The abstract submission should be made via conference website only.

All presenters are required to pay their own registration accommodation and travel expenses. Aquaculture Horizons 2026 cannot subsidize registration fees, travel or hotel costs. No Abstract Book will be printed—an Abstract Book will be available online

SINGAPORE

Singapore is a dynamic island city-state with a rich multicultural heritage and a striking blend of modern architecture and historical landmarks such as the Thian Hock Keng Temple and the colonial-era Raffles Hotel. Strategically located at the crossroads of major global shipping routes, Singapore has long been a hub for maritime trade, fisheries, and seafood commerce. Over the decades, its economy has diversified to become a global leader in finance, technology, and innovation.

Singapore’s aquaculture and seafood sectors are rapidly advancing, supported by cutting-edge research institutions such as the Temasek Life Sciences Laboratory and government agencies like the Singapore Food Agency. The country’s commitment to sustainable seafood production, urban aquaculture, and marine biotechnology positions it as a leader in future-ready food systems.

Singapore’s coastal waters and surrounding regions also host a growing interest in seaweed cultivation, shrimp farming, and integrated aquaculture practices. Combined with its world-renowned culinary scene, especially for seafood, and its excellent infrastructure and connectivity, Singapore offers a compelling location for international gatherings.

Singapore is an ideal venue for the Aquaculture Horizons 2026 conference, offering a vibrant maritime ecosystem, robust government and research support, and a strong focus on sustainable aquaculture innovation and regional collaboration.

Why to Attend?

Explore Global Market Trends: Gain insights into the evolving dynamics of international seafood trade, consumer preferences, and emerging market opportunities.

Discover the Future of Traceability: Learn how blockchain, QR codes, and digital twins are transforming seafood transparency, fraud prevention, and compliance.

Understand Cold Chain Innovations: Stay updated on advanced logistics, cold storage solutions, and export-readiness strategies critical for seafood quality and safety.

Engage with Industry Leaders: Hear from top producers, exporters, retailers, and innovators driving change in the global seafood sector.

Dive into Certification & Labelling: Explore the latest developments in eco-labelling, sustainability standards, and verification tools that build consumer trust.

Access Business & Trade Opportunities: Network with buyers, suppliers, and partners across the seafood value chain—from harvest to processing to retail.

Champion Responsible Sourcing: Participate in discussions on ethical supply chains, labour practices, and sustainability frameworks in wild and farmed seafood.

See Science & Tech in Action: Discover how AI, IoT, and data analytics are enhancing seafood quality control, inventory management, and traceability.

Who will Attend?

- Seafood Producers & Harvesters
- Seafood Buyers
- Processors & Exporters
- Retailers, Distributors & Foodservice Buyers
- Certification Bodies & Standard Setters
- Cold Chain & Logistics Providers
- Technology & Traceability Innovators
- Regulatory Agencies & Trade Authorities
- Investors & Business Leaders

Key Topics

- Future-Proofing Seafood: Policy, Partnerships, and Planetary Health
- Streamlining Export Compliance Through Digital Tools: Innovations in Shrimp, Tuna, and Multi-Species Trade
- Digital Twins for Seafood: Leveraging Blockchain and QR Traceability in Modern Processing Plants
- Scaling Land-Based Salmon Farming: Global Developments, Challenges, and Critical Lessons from Early Movers
- Fish Health and Welfare in Closed Systems: Preventing Problems Before They Start
- Chilling, Packaging, and Shelf Life: Technologies to Extend Freshness with Less Waste
- Conscious Consumers, Smarter Choices: What Today's Seafood Buyers Really Want
- Certifications that Sell: The Retail Value of Verified Sustainable Seafood
- Market Signals: How Policy, ESG, and Retail Demand Are Reshaping Supply Chains
- Charting a Low-Carbon Course: Decarbonization Strategies in Industrial Fishing Fleets
- Financing the Transition: Climate-Linked Investment and Innovation in the Seafood Sector
- Preparing for Tomorrow's Labels: What Retailers Expect from Certified and Verified Seafood
- Smarter Together: Co-Innovation in Packaging, Processing, and Product Transparency
- Wild Meets Farmed: Managing Interactions Between Capture Fisheries and Aquaculture
- Beyond the Farm: Strengthening Upstream and Downstream Partnerships for Sustainable Impact
- Technology as a Connector: Data Systems Linking Sustainability from Hatchery to Retail

SPONSORSHIP AND EXHIBITION OPPORTUNITIES

Senior decision-makers, experts, practitioners, business innovators, and young professionals from a variety of industries will come together in Singapore at Aquaculture Horizons 2026, actively seeking to collaborate with organizations that can help them accelerate their companies. The event will have many opportunities that will encourage structured and unstructured networking and interaction among delegates, sponsors, and speakers. Raise your corporate profile and engage with decision makers seeking innovative strategies. Take advantage of the networking opportunities and offer to build a vital relationships for the future, showcase your solutions, and generate new business leads and source opportunities for partnerships.

SHOWCASE BOOTH

Industry prospectors are looking for breakthrough technologies that are ready for licensing, corporate partnering, or investment opportunities. Showcase your innovative solutions and prototypes through demonstration and display with our showcase booth.

Marketing and Promotional Opportunities

Aquaculture Horizons 2026 offers various marketing and promotional opportunities for corporate companies. An effective way to raise your company's visibility, effectively get your message and brand out to a targeted audience, generate more sales opportunities, and increase the event's ROI. History has shown that companies that utilize MPOs generate more booth traffic, more sales leads, and an overall higher level of satisfaction than companies that do not take advantage of these opportunities.

We are offering MPOs the opportunity to sponsor the following events:

- Name Badges and Lanyards
- Recharge Kiosk
- Water Stations
- Lunch/Cocktail Sponsor
- Coffee Break Sponsor
- Notepad Sponsor
- Pen Sponsor
- Conference Book Advertising (Back Cover, Inside Covers, Pages)

Are you interested in partnering and sponsoring **Aquaculture Horizons 2026?**

We are also able to offer you a customised sponsorship package to promote the benefits of your products and services in a unique way. If you'd like to discuss these opportunities, please contact the conference producer.
